

INVITATION TO ACHIEVING EXCELLENCE

LADIES AND GENTLEMEN!

The Company "ZYGON CASPIAN CONSULTING" invites you to participate
in the seminar «Investors in Excellence (liE)», «Achieving Excellence»

The Investors in Excellence (liE) Achieving Excellence course explores the nature of leadership according to the best practice models of liE that focus increasingly on the need for engaging strategic leaders at all levels of an organisation who can enhance both the well-being and performance of their employees and, as a result, of their organisation as a whole.

Achieving Excellence is designed to dramatically impact the capacity of leaders to be excellence leaders to cause a new level of performance in themselves and others. The programme dispels the myths once and for all of what is at the heart of truly effective leadership and proposes an innovative, yet practical approach to challenging 'business as usual' or 'this is the way things have always been done around here' and generates the potential for exceptional results. Achieving Excellence is designed for leaders at all levels who are charged with implementing strategy, operational performance and delivering new levels of business results.

Participants will learn new models and frameworks for elevating leadership capabilities and delivering extraordinary performance. In addition, they will be challenged to apply their learning to a business issue or challenge they are currently facing.

Date and time: February, 2020 (4 days from 9:30 -18: 00)

Venue: WOULD Business Center (Conference Hall, 2nd floor)

Lecturer - Kevin Hart MA SHRM BA MCIPD MD and Programme Director of Investors in Excellence (UK, London)
